| 525- INTERIOR LATEX PEARL | | 25-35 |

Coverage

4 litres will cover up to 40 square meters
(400 square feet per coat).

Optimal Performance Guidelines

- Always use premium applicators. Synthetic brushes and high quality lint free rollers are recommended. May be sprayed.
- While applying paint, always maintain a wet edge and a liberal uniform film thickness.
- Before painting be sure that enough paint is purchased and boxed together to ensure a uniform colour.
- All surfaces must be clean, dull, dry and free of dust, grease, wax or any other contaminants.
- Follow label/lid directions for application and primer requirements.
