EXPAND YOUR CREATIVITY WITH EMBROIDERY
Embroider and Sew with Ease

• **Optimizing Embroidery**
With over 100 built-in embroidery designs and 10 embroidery fonts, the LB7950 can easily jumpstart your embroidery journey. Additional embroidery designs include colourful motif patterns, youthful appliqués, and alphabet and frame patterns as well.

• **Design Database Transfer**
When connected to a wireless network (wireless LAN-enabled), the LB7950 lets you send embroidery designs from your PC to your machine via Design Database Transfer[1] (no USB required), so you can send and then stitch! This free downloadable software allows for easy data management for all your designs. You can also create and send designs through PE-DESIGN 11[2] for added flexibility.

• **Generous Workspace**
With the 3.7" LCD colour display screen, a 4" x 4" maximum embroidery area, and 6.4" x 4.0" work area, you'll have plenty of room for your next project.

• **Artspira Mobile App[1] – Available Fall 2022**
Download designs or make your own embroidery designs by drawing on your mobile device. Draw line-art inspired designs up to 4" x 4". View your completed drawing on the Stitch Simulator so you can view how your design will look when stitched out. The Artspira mobile app lets you share your creations on many social media platforms[3] as well.

• **Savvy Sewing**
103 built-in sewing stitches, including 10 styles of one step auto-size buttonholes, and the advanced needle threading system for all your sewing needs.

• **Included Accessories**
A selection of feet that includes a Zigzag Foot, a Monogramming Foot, an Overcasting Foot, and more.
