Wireless, versatile and easy to use label printer.

The QL-810W prints up to 110 labels per minute so no matter what your business printing needs may be, you won t waste time with inefficient or hard-to-use labellers. Keeping versatility and convenience top of mind, this machine uses easy-to-load Brother DK drop-in rolls – some of which can even print in black and red – so you can put it to work for a wide variety of applications.

| Drop-in rolls | Die-cut and continuous rolls | Automatic cutter | PC-connected | Wi-Fi |

Wired and wireless connectivity with AirPrint compatibility
Having USB, WiFi® and AirPrint all built-in as standard, you can choose whether to use as a personal label printer on your desk or let others also use it from their PC or Mac via your wireless network.

Print from PC, Mac, iOS and Android™ devices
Choose from several options for designing and printing labels. Download the free P-touch Editor label design software for PC and Mac to design labels with text, barcodes, images and frames. Or, go to your app store to download the free iPrint&Label app for iOS and Android™ to quickly create and print labels wirelessly from your mobile devices.

Microsoft Office and database printing
The P-touch Editor add-in for Microsoft Office (Windows only) allows you to easily select and print database info directly from Word, Excel and Outlook.

Black and red printing
Draw attention to important information on your labels with black and red* print – ideal for highlighting use-by dates, allergens and other critical information.
