

Professional, ultra flexible label printer
with multiple connectivity options

QL-820NWB

The flexible label printer with a full range of connectivity

Make your day-to-day operations simpler! Offering fast printing speeds of up to 110 labels per minute, you'll save time (and frustration) with this user-friendly machine at your service. Featuring a full range of connectivity options including USB, wired Ethernet, WiFi and Bluetooth, all your options are covered.

Drop-in rolls

Die-cut and continuous rolls

Automatic cutter

PC-connected

Wi-Fi

Bluetooth wireless technology

Print from PC, Mac, iOS and Android™ devices

Choose from several options for designing and printing labels. Download the free P-touch Editor label design software for PC and Mac to design labels with text, barcodes, images and frames. Or, head on over to your app store to download the free iPrint&Label app for iOS and Android™ to quickly create and print labels wirelessly from your mobile devices.

Microsoft Office and database printing

The P-touch Editor add-in for Microsoft Office (Windows only) allows you to easily select and print database info directly from Word, Excel and Outlook.

Integrated LCD for standalone printing

A large backlit graphic display makes it simple to configure the machine and select labels stored in memory that you want to print. In the event of any errors, on-screen guidance facilitates troubleshooting and problem resolution. Use this label printer on its own or connect it to a bar code scanner via USB host.

Black and red printing

Draw attention to important information on your labels with black and red* print – ideal for highlighting use-by dates, allergens and other critical information.
