

**Brother's extensive product lineup
for authorized resellers**

www.brother.ca

“At your side” is more than a tagline.
It’s our promise.

At your side, for any business need

Great businesses thrive on strong collaboration and partnership, and we are committed to working together to develop and implement infrastructures that respond to the needs of today's workplace.

Brother hardware, services and solutions help teams operate regardless of their setting. Our "At your side" promise means that whatever the challenge, we'll be there to provide the expertise needed to put the right solutions in place.

Unlock productivity and cost efficiency

Our products help businesses optimize their print infrastructure with user-friendly tools that improve visibility, reduce costs, and streamline workflows. Advanced scanning, cloud connectivity, mobile printing, and remote monitoring enable seamless collaboration, minimize downtime, and boost productivity.

Secure in today's hyper-connected world

Some of our solutions feature enhancements such as triple-layer security ensuring networks, documents and devices remain protected.

Support greater sustainability

Every business is looking to reduce its impact on the planet, and we are no different – it's a fundamental part of what we do.

We develop long-lasting, efficient and durable hardware that is repairable and includes energy-saving features. Our innovative products are engineered to limit their impact on the environment at every stage of their life cycle.

Security validation

Brother is committed to keeping up with the strictest standards of security requirements. Keypoint Intelligence Security Validation includes testing device penetration to ensure protection against vulnerabilities in the device firmware/ OS, ports, print protocols, embedded web pages, connectivity avenues, and other areas.

Brother's printing solutions for small and medium businesses, enterprise and home office environments

Productive. Efficient. Secure.

Our product lineup for authorized resellers

www.brother.ca

Less time dealing with printing and worrying about security means more time to focus on business.

Our reliable, professional, user-friendly printers deliver extended duty cycles, high-speed printing, sharing functions and customization options. And as security is a major concern for businesses, they're designed with robust measures in place to keep assets and data safe.

High-quality output

Low total cost of ownership

Advanced security features

! QUICK REFERENCE GUIDE

Find a Brother printer or all-in-one to fit any business

Our portfolio offers a wide range of machines for everything from high-volume environments to compact solutions for home, small office and hybrid work settings.

WORK-FROM-HOME / SMALL OFFICE SOLUTIONS

Users: 1-5

Recommended print volume: Up to 2,000 pages/month

Key features: Compact footprint, quality at a great price

Find dependable solutions for small offices and corporate home offices based on various requirements. While laser printers deliver high-quality printing at fast speeds, inkjet printers produce beautiful colour signage, reports, and other important documents. No matter the need, we can help keep small businesses or remote offices running smoothly and efficiently.

Print confidently every time.

Only Brother Genuine ink and toner keeps our printers working at their best. Designed to work in perfect harmony with our award-winning machines, these supplies guarantee rich, vivid colour and crisp black output, meeting the highest standards for performance, durability, and reliability.

Superior quality on every page. With reliable, consistent performance, Brother Genuine ink and toner produce premium prints in crisp, sharp tones that won't fade or smudge.

Designed exclusively for Brother. The only ink and toner brand recommended for our multifunction and all-in-one printers.

Cost efficiency. Brother Genuine provides excellent value with a low total cost of ownership (TCO) and competitive cost per page (CPP).

Comprehensive product range. Brother Genuine is available in an extensive variety of choices including convenient multipacks, as well as high-yield options to help handle high-volume printing with ease.

Mobile, Compact & Professional Scanners

Capture. Optimize. Collaborate.

Find a Brother scanner tailored to today's business needs

Our portable or desktop scanners streamline workflows. From compact and efficient models to truly automated ones, our scanners help save time and money. Find a scanner tailored to today's business needs.

MOBILE & COMPACT SCANNERS

Simple, one-touch solutions

With a built-in QWERTY keyboard and large graphical display which includes print preview, the new PT-D series models are user-friendly and designed for ease-of-use, fast-typing and optimal desktop handling.

Print customized labels

Expanded options for creating labels

The PT-D series models are perfect for straightforward standalone use, as well as PC/Smartphone connectable and offer additional label design functionality when paired with Brother's iPrint&Label app, plus brand new P-touch Editor 6.0 software.

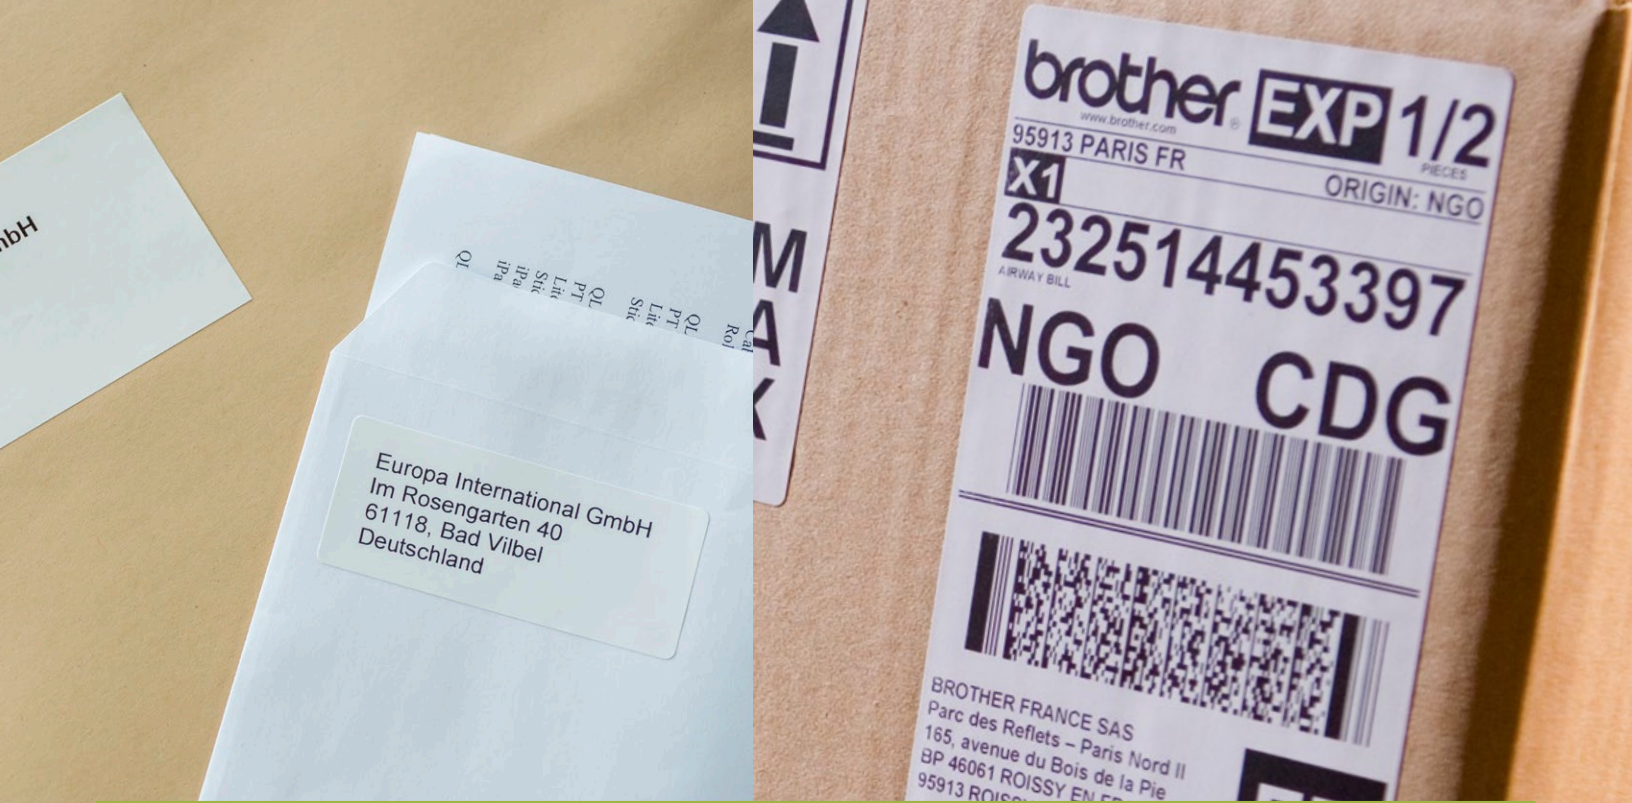

Print on durable, laminated tapes

Crisp high resolution

These applications provide expanded options for creating labels beyond basic usage, including specially designed, ready-made templates and the option to create fully customized labels.

Professional label printers

Boost productivity with our professional range of shipping label printers, designed to meet every business need efficiently and effectively.

Brother's QL label printers make it easy to take care of business in any office, home office or small-to-medium business. Offering wired or wireless connectivity options, they help users quickly and easily print address and shipping labels, barcodes, visitor badges, banners up to 3 feet long, product labels and more from desktop or mobile devices.

Models within the range:

QL-600
QL-800
QL-810WC
QL-820NWBC

Key features:

- Thermal direct printing: No ink or ribbons needed for hassle-free printing.
- Flexible connectivity: Connect via USB, Wi-Fi, Ethernet, or Bluetooth.
- Print from any device: Compatible with PCs, Macs, smartphones, and tablets using free iOS and Android apps.
- Customizable label sizes: Use pre-sized labels or cut continuous rolls up to 3 meters with the built-in cutter.

Professional wide format label printers

For warehouses, mailrooms and businesses that send parcels

Offering a 4-inch print width, popular connectivity options and various ways to integrate into existing IT systems, Brother QL-1100c and QL-1110NWb label printers are ideal for mailrooms, warehouses, and users needing high-quality shipping labels and signs with barcodes, images and text.

Models within the range:

- QL-1100c
- QL-1110NWb

Key features:

- **Wide Print Area:** True 4-inch print head ensures full label compatibility with logistics and shipping standards.
- **Custom Labels:** Create pre-sized or custom-length labels up to 3 meters with the built-in cutter.
- **Flexible Device Compatibility:** Print from desktops, smartphones, and tablets via USB, Wi-Fi, Ethernet, or Bluetooth.
- **Automatic Template Updates:** Remote FTP updates streamline label template management across locations.
- **Developer-Friendly:** Software kits for Windows, iOS, and Android simplify integration with Brother printers.

Print durable labels from your PC, Mac, smartphone or tablet using wireless or wired network connectivity.

Models within the range:

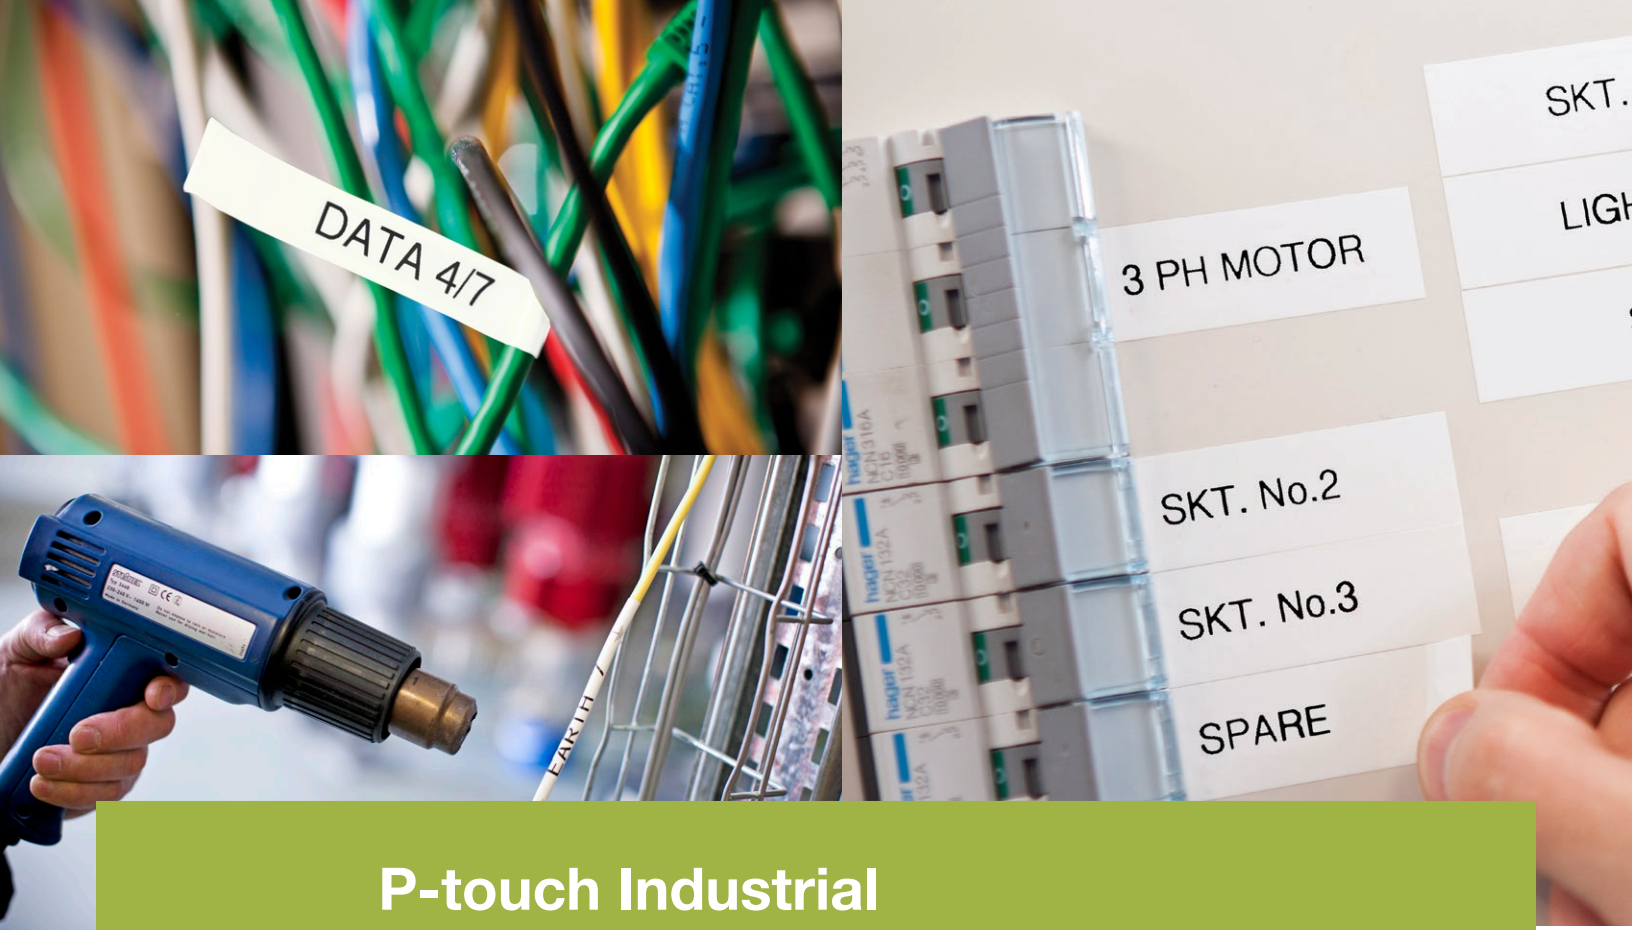

PT-P900WC
PT-P950NW

PT-P900WC/PT-P950NW series

Offering the highest print speed and print resolution in their class, the P-touch 900 models series professional label printers produce durable labels up to 36 mm wide with text, barcodes, images and logos onto laminated tapes that are suitable for indoor or outdoor use, and last for many years. Wireless and wired network connectivity and a range of optional accessories deliver a customized label printing solution that meets many requirements.

Key features:

- Print high-speed, high-resolution labels up to 36 mm wide
- Wired network and Wi-Fi to print labels from several devices at once, including tablets/smartphones
- Advanced cutter with easy-peel split-back label function
- Include text, images, barcodes and frames on labels
- Batch print from spreadsheet data for efficiency.
- Software development kits available for Windows, iOS and Android devices
- Optional accessories to customize the printer to a variety of needs

P-touch Industrial Handheld Label Printers

Our range of robust industrial label makers and tapes offers smart solutions for compliant results.

Specifically developed for industrial use, these machines and durable laminated labels are ideal for electricians, cable and datacom installers and other tradespeople who require clear labelling for a wide variety of components.

Key features:

- **Professional installation.** Create durable labels with easy-to-read high-resolution text and a protective laminated layer.
- **Ease of maintenance.** A well-labelled job makes upkeep and repairs easy, saving time and money.
- **Streamlined operation.** Clear identification ensures smooth operation and reduced errors.
- **Tackle jobs in different ways.** The range offers the flexibility to design and print labels from mobile devices, computers or right from the handheld printer.
- **Safety compliant.** Create professional warning signs and information labels to ensure a safe environment.
- **UL certified labels.** Brother HGe and industrial TZe industrial extra-strength adhesive and flexible ID laminated labels are UL certified to the UL-969 standard.
- **Variety of cutter options.** Models available with built-in manual, auto, half and full cutters.
- **Built to last.** Rugged design includes drop-protection and robust features that stand up to the rigors of industrial environments.

P-touch

Genuine label tapes

A Brother Genuine label tape for every application

BTag tapes

Btag tapes are designed for versatility and durability and can be used for nearly endless educational applications. Available in 17 vibrant colours, and featuring easy-peel backings, they make it simple and quick for staff in schools and daycares to create eye-catching labels to colour code bins and shelving, inject creative touches to classrooms, add fun messages to homework and tests, organize supplies and more.

Compatible with P-touch PT-N10, PT-N20 and PT-N25BT label makers.

TZe tapes

Setting Brother apart from the competition, TZe tapes are engineered with an innovative laminated tape technology that combines six layers of materials for exceptional durability and performance. With over 60 colour and size variations, the range includes standard laminated tapes, decorative tapes and ribbons, and special function tapes, offering versatile applications to both business and home environments.

Compatible with select P-touch label makers

HGe tapes

HGe tapes are designed for use by specialized trades in both indoor environments and harsh outdoor conditions. Their superior adhesion makes them ideal for application on a variety of textured, rough, slippery painted metal, powder-coated or uneven surfaces.

Compatible with select Industrial P-touch handheld label makers and P-touch desktop label printers.

HSe shrink heat tubes

HSe heat shrink tubes are made to help tradespeople like telecom/datacom specialists or electricians label cables, fibers and wires easily and efficiently. Used as a protective covering, the material shrinks upon application around the item when heated to shield against wear and tear.

Compatible with select P-touch label makers

A word on sustainability

At Brother, we provide reliable, tailored solutions for businesses.

Environmental Commitment

We continuously work to reduce environmental impact and increase the sustainability of our business operations. Our environmental performance is considered at every stage of a product's life cycle, from design, development and manufacturing to customer usage.

Sustainable Technology

To minimize the impact we have on the environment, we offer sustainable technology solutions with long-lasting, energy-efficient hardware. Our product lineup reflects our extensive experience in the print sector, keeping pace with the rapidly evolving business environment.

ENERGY STAR® - Compliant Products

ENERGY STAR® is the trusted, government-backed symbol for energy efficiency. It helps businesses and consumers save money and make a positive impact on the environment by using energy-efficient products and practices. We offer a wide range of ENERGY STAR®-compliant printers, all-in-ones, and scanners with features such as power management and sleep mode to reduce energy consumption.

Using ENERGY STAR®-labelled products can make a significant difference in energy usage. Our compliant products are capable of the following:

- Conserving energy through power management
- Switching to sleep mode when not in use
- Running cooler and lasting longer
- Being on average, 25% more efficient

Committed to Meeting EPEAT® Requirements

EPEAT® is a global environmental standard that helps identify environmentally preferable document imaging equipment. Various factors are evaluated during the rating process including the resource and energy-saving characteristics of the product and the reduction and elimination of environmentally sensitive materials.

We are committed to continuously creating and delivering high-quality, eco-conscious printers, all-in-ones, and scanners that meet the strict EPEAT® criteria.
