What's the formula for perfect crafting success?

Just add imagination! Now, the only home and hobby cutting machine with a built-in scanner has essentially everything you need to create stunning projects.

Up to 600 dpi for the scan to USB function
Turn your scanned images into unique one-of-a-kind cut designs and patterns.

1,303 built-in designs, including 140 quilt patterns, plus 17 lettering fonts

Seam allowance and sewing guidelines
Add seam allowances in $\frac{1}{4}$" increments to help piece together fabric pieces for quilts, clothing and more.

Precise and Quick Cuts
Cuts faster than previous ScanNCut models**.

Scanner Height Position Lever
Two positions for the built-in scanner. Position 1 (lower) is used when scanning thin materials. Position 2 raises the scanner glass to scan thicker materials.

Built-in Storage and More!
Ample storage for blades, touch pen and other tools, right inside the front cover! Plus, the storage area can be used as a wide, flat work surface for securing materials to the mat.
