EDGE FINDING

StudSensor™ EDGE

Stud Finder with SpotLite® Pointing System and a Revolutionary New Shape

The maker of the original StudSensor™ is now taking stud finding to the next generation. First in a new line of product overhauls, the StudSensor™ EDGE is a complete redesign of Zircon's most popular tool.

Its new patented pinch grip design features a body molded specifically to fit comfortably in the palm of your hand. The end result is a secure hold in either hand at any angle providing a new level of ease, comfort, and utility to the user. The EDGE also features a user-friendly interface and improved SpotLite® Pointing System which shines a bright arrow-shaped beam on the wall to clearly identify the edge of the target.

The bevy of improvements and the revolutionary new design make it our best entry-level stud finder yet.

- Locates the **edges of wood or metal studs** up to 19 mm deep
- New **"Ready" light** indicates when calibration has completed successfully
- New **"Edge" light** indicates when the tool is over a stud edge
- Updated **SpotLite® Pointer** shines an arrow-shaped light on the wall to mark the target
- Should scanning begin over a stud, Zircon's patented **"over-the-stud"** indicator alerts the user to start the scan in a new location
- New **ergonomic design** can be comfortably held in either hand at any angle
