

# BENEFITS

- Trigger Flow Nozzle™, no need for a caulking gun.

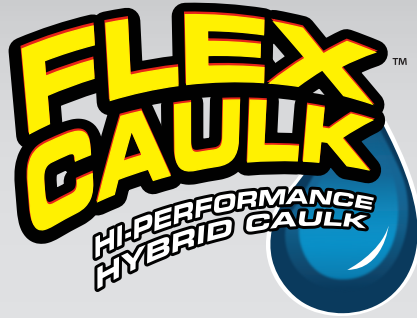

- Can be applied to wet or damp surfaces.

- Fully paintable and virtually odorless.

- Chemical, UV, and mildew resistant.

- Will not shrink, crack, or peel.

# TOP USES

- Bathrooms
- Kitchens
- Sinks
- Showers
- Toilets
- Backsplashes
- Countertops
- Baseboards
- Moulding
- Pipes
- Skylights
- Windows and doors
- Auto and boat repairs

# DIRECTIONS

- 1** Remove “Snap & Save” cap.
- 2** Adjust the flow setting.
- 3** Hold at a 45° angle, push trigger down to begin flow, and keep pushing it while moving the nozzle across the area.
- 4** Remove excess caulk with a dry paper towel.
- 5** After use, wipe off tip and secure “Snap & Save” cap tightly on the nozzle.
