

# ALEX FLEX<sup>®</sup>

## Superior Performance for Molding & Trim Applications

DAP<sup>®</sup> ALEX FLEX<sup>™</sup> is specifically formulated for use on molding & trim applications. It delivers maximum adhesion & flexibility for a crack proof seal.

### Ideal for:

- Windows and doors
  - Crown molding
  - Chair rails
  - Corner joints
  - Vents
  - Molding
  - Baseboards
  - Other gaps and cracks
- **Crack proof** – Flexible enough to endure expansion and contraction. Exceeds ASTM specification C920, Class 12.5
  - **Dries faster** – Paintable in 30 minutes
  - **Ideal for Natural & Synthetic Materials** - High-performance formula seals wood, MDF, PVC, polystyrene & composite molding
  - **60 year durability**

**DID YOU KNOW?**  
Molding & Trim is one of the most demanding application for a sealant, so choosing the right sealant is important.

**Flexible, Fast, Finished!**
