**AquaWood is a revolutionary, fully-waterproof flooring.**

Your AquaWood floor is perfect for any room in the house – it has your back through leaking dishwashers, clumsy kids, overflowing laundry machines, excitable dogs, and whatever other wet messes life can throw at you. AquaWood is made of an innovative waterproof material and features a high-quality core material and top layer to ensure the beautiful realism of every AquaWood plank is preserved.

The revolutionary core of AquaWood is what makes this floor substantially different. Made from a newly developed Stone Composite material which allows AquaWood to offer a full No Rip, No Tear, No Gouge warranty on the floor. AquaWood has been further enhanced with an attached acoustical waterproof foam to keep your toes warmer, while also enhancing the acoustic properties of your room.
