

## PRODUCT DATA SHEET

# Windsor® Pure and Natural® Water Softening Crystals

### Description

- This product is produced from solar evaporated salt at several manufacturing locations.
- There are no additives.
- Some production may contain traces of off-colored insolubles.
- Meets AWWA Standard B200 for Sodium Chloride.
- This product is certified to NSF/ANSI/CAN 60.

### Use

- This product can be employed in any type of home or light commercial softener brine tank properly equipped to filter fine insolubles to avoid valve clogging.

### Notice

- This product is not suitable for direct incorporation into food since it is not manufactured in compliance with 21 CFR 117 - Current Good Manufacturing Practice, Hazard Analysis, and Risk-Based Preventive Controls for Human Food and 21 CFR 507 for Animal Food.

### Chemical Properties

Analyte	u/m	Range	Note
Sodium Chloride	%	>=99.47	1
Water Insolubles	%	<=0.14	

- Note 1. By difference of impurities, moisture-free basis (ASTM Methods).

### Codes

Pack	Material Code	UPC
18.1 Kg Bag	F124110000	0 66010 02411 5

### Storage/Coding

- Salt is chemically stable and will not support microbial growth. To reduce the incidence of caking, store in a cool, dry area, relatively free of drafts, where the humidity does not regularly cycle through 75% rh. Under these conditions, the shelf life is indefinite.
- Chemically stable. Store indoors or cover with UV resistant plastic to protect from wetting or direct sunlight. Packaging can disintegrate upon prolonged exposure to UV radiation.

### Plants

- Fairless Hills, PA and Grantsville, UT

*The data provided herein is based on information we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our products are beyond our control. We recommend that the prospective user determines the suitability of our material and suggestions before adopting them on a commercial scale.*
