DIGITAL HUMIDISTAT WITH OUTDOOR SENSOR

Eliminates the need to adjust humidity settings when the weather changes

BUILT-IN PRESSURE SWITCH

Verifies airflow before humidification starts, saving water usage

- Flow-sensing pressure switch and shut-off damper built into product
- Less maintenance and cleaning than portable units
- Proper humidity reduces the risk of damage to your home's woodwork, flooring, musical instruments, and paintings.
- Reduces static electricity
- Humidified air feels warmer so you can turn the thermostat setting down to help reduce heating bills.
- PerfectFLO® water distribution tray optimizes efficiency and water usage
- Seasonal humidifier pad replacement required

* Age of home is a general guideline in determining humidification range but should not be used as sole determining factor for sizing.
