

# SAFE PREP CONCENTRATED C17-10

## Description

Natura Safe Prep was developed to perform optimally through the combination of proprietary formulation and advancement. A safe choice that offers general surface preparation for exterior and interior surfaces.

## Recommended Substrates

Multi Surfaces – Vertical and Horizontal Use

## Tinting and Base Information

N/A

## Features

Concentrated  
Paint Preparation  
No Rinse Formula  
Phosphate-Free degreaser  
Home Owners Guarantee

## Benefits

Improves paint adhesion  
Routine cleaning for siding and paint  
Natural derived formulation  
Not as aggressive as regular T.S.P.

## Regulatory Conformance and Approvals

N/A

## Technical Data

**Vehicle Type:** N/A

**Gloss Range:** N/A

**Spread Rate:** N/A

**Wet Film Thickness:** N/A

**Dry Film Thickness:** N/A

*Spread Rate do not include loss due to surface irregularities, surface porosity, and application method*

**Volume Solids\*:** N/A

**Weight Solids\*:** N/A

\*N/A

**Drying Time:** @ 25°C; 50% Relative Humidity

To Touch – N/A

To Recoat – N/A

To Full Cure – N/A

*Drying times will vary depending on ambient temperature, humidity, film build, colour, and air movement.*

**Colour:** Light Green

**Fragrance:** Odourless

**pH:** 11.5

**Specific Gravity:** 1.06

**Surface Temperature:**

Material – 10°C (50°F) to 32° (90°F)

Ambient - 10°C (50°F) to 32° (90°F)

Substrate - 10°C (50°F) to 32° (90°F)

*Storage of material at elevated temperatures for prolonged periods may experience skinning.*

**Viscosity:** N/A

**Flash Point:** N/A

**Disposal:** Contact your local environmental regulatory office or your municipality for specific guidelines

**Container Sizes:**

C17-10 250ML 1620-951

1L 1620R950

## General Preparatory Steps and Application Info

-Concentrated formula.

-125ml (1/2 cup) of Safe Prep into 4000ml (4L) of warm water.

-Use a cloth or sponge to wash the surface well.

-No rinsing is necessary but ensure excess cleaner residue is removed (rinsing might be necessary).

-Depending on severity of surface, repeat above process.

-Allow surface to completely dry prior to painting.

-Do not mix with products containing bleach or ammonia.

-Will not neutralize mold or mildew. 1 part of bleach and 3 parts of water to kill mold or mildew. Clean with Safe Prep afterwards.

-Please take extra precaution near and around the project to protect foliage, metal, and glass.

-Follow label directives for application requirement. Consult your local Paint Department.

-Can be used as maintenance cleaner.

**Application Equipment:** Clean Cloth or Sponge. Do not use a microfiber cloth as it might damage the paint.

**Thinning:** N/A
