

Ceiling Paint Lines

Features and Benefits

- Non spattering
- Tintable
- Desirable soft white finish

70-10 Latex Ceiling Paint
70-50 Latex Ceiling Perfect

50-10 Alkyd Ceiling Paint

Note: Textured or stucco ceilings must be thoroughly sealed with an Alkyd. If you are unsure if an alkyd has been used to seal, then apply a coat of Alkyd Ceiling paint 50-10.

Ceiling Perfect

You can't see where you've painted – where the old paint stops and the new paint begins. Ceiling Perfect paint from Beauti-Tone solves all those problems and makes painting the ceiling easy.

It's magic. It goes on blue and dries to a perfect white matte finish. Ceiling Perfect goes on blue, and within 24 hours, daylight transforms the blue into white.

Note: In order for the reaction to take place within this product, light is essential. The lighter the faster the product will fade. Recommend the product is applied in a well-lit room and the lights remain on for 24-48 hrs, until the reaction has completed. If the area is too dark, the blue may not totally fade away.

Coverage

4 litre covers 40 to 50 sq metres (400-500 sq feet) depending on the surface conditions and method of application.

Optimal Performance Guidelines

- Always use premium applicators. Synthetic brushes and high quality lint free rollers are recommended. May be sprayed.
- While applying paint, always maintain a wet edge and a liberal uniform film thickness.
