

TEN REASONS TO SELECT FORTIS LIFE SCIENCES FOR YOUR BULK ANTIBODIES AND REAGENTS FOR YOUR APPLICATIONS.

1

YOUR SUCCESS IS OUR #1 GOAL.

Our team delivers antibodies and reagents that meet your specific needs. Your experiments, your business, and your reputation are too important to work with providers who cut corners.

2

WE ARE A TRUSTED SUPPLIER TO THE RESEARCH INDUSTRY.

With a track record of nearly 50 years of success for supplying bulk immunoreagents, we are leading supplied to global research companies.

3

OUR ANTIBODIES ARE USED IN MANY, DIVERSE APPLICATIONS.

We supply antibodies for a variety of applications including lateral flow, turbidimetry/nephelometry and immunoassays.

4

WE DE-RISK YOUR JOURNEY.

We perform quality control on-site to ensure the antibodies and reagents perform as needed.

5

WE ARE A ONE-STOP SHOP FOR ALL YOUR NEEDS.

IgG fractions, affinity purified antibodies, secondary antibodies and purified proteins and antigens are available in multiple gram and liter scales and can be customized to meet your specific technical requirements.

6

WE HAVE CONTROL OVER THE ENTIRE SUPPLY CHAIN AND MAKE EVERYTHING IN-HOUSE.

From recombinant protein and peptide antigens to the final antibody preparation the entire production process and quality control take place at our facilities in the United States.

7

WE OFFER COMPETITIVE PRICING.

Our prices scale with the size of your order.

8

WE CAN SCALE PRODUCTION TO MEET YOUR SPECIFIC NEEDS AND BECOME YOUR DEDICATED SUPPLIER.

We will work with you to ensure availability and on-time delivery as your long-term partner.

9

WE MAINTAIN AN EXTENSIVE INVENTORY FOR DIAGNOSTIC APPLICATIONS.

We can meet tight deadlines and address your assay development needs with a very short turnaround time.

10

OUR SAMPLING PROGRAM ALLOWS YOU FLEXIBILITY TO GET IT RIGHT.

You can try our antibodies in your application to ensure perfect alignment with your specifications.
