## STARLINK MARITIME
Bring Real-time Enterprise to Sea

A ruggedized service for boats, ships, yachts and rigs, Starlink Maritime delivers high-speed, low-latency broadband internet at sea. Enabled by a constellation of thousands of low Earth Orbit (LEO) satellites, Starlink Maritime offers speeds of up to 350 Mbps, enabling video calls, streaming and other high data rate applications.

STARLINK

MARITIME COVERAGE

Starlink Maritime is available for use in waters around the globe.
Coverage in local Territorial Waters is contingent on government approval.

* Starlink Maritime service is provided on a best effort basis; stated speeds and uninterrupted use of services are not guaranteed.

Flat High Performance Starlink Specifications

Antenna

- Dimensions: 57.5 x 51.1 cm (22.6" x 20.1")
- Antenna: Electronic Phased Array
- Field of View: 140°
- Dish weight: 5.9 kg/13 lbs without Cable 6.7 kg/15 lbs with 8 m/26.2 ft Cable
- Environmental Rating: IP56
- Operating Temperature: -30°C to +50°C (-22°F to +122°F)
- Wind Speed: Survivable: 280 kph+ (174 mph+)
- Power Consumption: Average: 110-150 W

Wi-Fi Router

- Wi-Fi Technology: 802.11ac Dual Band
- Generation: Wi-Fi 5
- Radio: Dual Band: -3 x 3 MIMO
- Weight: 1 kg (2.2 lbs)
- Security: WPA2
- Range: Up to 185 m (2000 ft)* *Varies on placement, interference, and materials
- Mesh Compatibility: Compatible with up to 12 Starlink Nodes
- Devices: Connect up to 128 devices

Power Supply

- Input: 100-240V - 6.3A 50 - 60 Hz
- Environmental Rating: IP56
- EU cabling standard

Wedge Mount

- Dimensions: 43.33 x 33.81 x 9.02 cm (17.06" x 13.31" x 3.55")

Make 100% Uptime a Reality

Speedcast seamlessly integrates the latest LEO offerings in the market via our SIGMA network management platform and leading SD-WAN solutions to combine with GEO, MEO and 4G/5G for high demand applications.

The advanced network management technologies blend Starlink's broadband service with other connectivity options for a single, optimized, secure path, delivering the highest aggregate uptime and availability.

Check out the benefits of incorporating multiple pathways into a global managed service below.

Hybrid Connectivity via Speedcast SIGMA network management & SD-WAN

GEO SATELLITE

MEO SATELLITE

LEO SATELLITE

4G/LTE/5G

A Managed Service Approach to Getting the Most from Starlink

Keeping customers fully connected & fully supported

Responsive Support
24/7 phone, email & client portal support for high availability operations, without the wait

Diversity, Redundancy & Back-up Service
Access to our complete network toolkit so you're never tied to a single, closed network

In-field Experts
Global technicians on the ground for optimal remote site set-up and troubleshooting

Licensing & Regulatory Expertise
Complete management of complex regulatory and licensing requirements

Access to Added Levels of Security
Next-gen firewalls, endpoint security, secured remote access, anti-virus, threat management and intrusion protection

Commercial, Logistical & Contractual Options
Flexible invoicing and payment options, plus industry leading SLAs

Are you ready for high-speed LEO connectivity? Contact us at info@speedcast.com
